

BIO  
**Susan Wheeler**  
The Holly Pond Hill collection

Susan Wheeler is a gifted artist from Fredericksburg, Texas. She is the creator of Holly Pond Hill, a world of Victorian fancy, seen from the eyes of woodland creatures. Susan has created exquisitely detailed watercolors that include adorable rabbits, mice and other animals. They are easily recognizable in greeting cards, books, bedding, figurines, wall coverings, calendars and now fabric. They cross the boundaries between animal and human behavior, often sipping tea, gathering flowers or eating supper by candlelight. They live in tree trunks and nests, but decorate with linen and lace. They love chocolate! What could be more human?

Susan lives with her husband, four children and various pets and farm animals in the Texas Hill Country. This is her first fabric collection with P&B Textiles.
