

# Circle Flower Tutorial

Designed by Nancy Lindblom

## Fabric Requirements

1/3 yard fabric

Thread/Needle

Pinking Shears

Pencil

Circle ruler

Trace 20 - 5" Circles for this flower

Cut out with pinking shears

Fold each circle in half twice to make a triangle.

With your threaded needle, come up through the bottom corner of the triangle. Add 2-3 triangles, each facing the opposite of the one above it, come up through the bottom of them until all 20 have been added.

Go through all of the triangles two more times and tie off thread.

Now with your fingers on each side of the fold for the first triangle, pull them straight across, gently. Repeat for all triangles. The flower will fill as you open each one. Pull a few to one side and a few to the other to round out the flower. Attach with needle and thread to your project.

All Done! Enjoy!
